Description

This chest of drawers is designed specifically for those suffering with dementia. The open cut-out on each drawer provides a key opportunity to see and feel what is inside, which can often help to reduce anxiety and access confusion.

These pieces are hand-finished with melamine faces to aid easy-cleaning and hygiene. Manufactured specifically for severe contract use, joints are glued, screwed and doweled for the utmost in strength and build quality. Available in a range of wood effect colours, as well as the option for white contrast door and drawer fronts.

Dimensions:
Width: 715mm
Depth: 540mm
Height: 1065mm
