#### **Description**

#### Now with 5 years guarantee.

The F4E is among our highest **quality folding chairs**. The design incorporates a tough polypropylene fan back, strong frame and a padded seat. 3 stock colours available (grey, burgundy and blue) for quick delivery and an optional **hanging trolley**.

Choose from several different hanging trolley options. Up to 108 chairs can be hung on the high trolley.

**Folding chairs** are great for the situations where **storage space** is critical, and where the chairs spend much of their life stowed out of use. The F4E will store efficiently, without you having to resort to an unpadded seat. Samples are available for free trial. Lead-time is typically within one week, depending on stock.

Please note that this chair must be ordered in quantities of 4.
