Gopak Premier Folding Tables

From: £126.65

Quantity	Price
-	£0

Description

Gopak Premier folding tables are increasingly popular, featuring:

- Strong and robust as with all Gopak tables
- Durable and hygienic, with flush edging
- The quality choice

With an aluminium underframe and legs, smart charcoal polyurethane edge, and strong construction, the Premier table gives total flexibility in any multi-functional area, with the added advantage of folding flat for storage. The Gopak Premier folding tables feature a smooth and rounded polyurethane edge on the table top. Produced using state of the art technology, the Polyedge is knock-proof, damage resistant and impervious to water. It also allows for easy wiping and cleaning of the table with no raised edge. With the Premier folding table, Gopak has used the most modern edging process available, combined with an aluminium frame. As a result the table weight has been minimised and you can be assured of a product that is hygienic to use, simple to fold, neat to store and sturdy in use. [Click here](#) to see a demonstrative video on how best to fold your Gopak tables. All Gopak folding tables and stacking benches are manufactured to BS EN 9001:2000 for Quality Assurance.
