Gopak Ultralight Staging Package C - 15sqm

From: £4995

Quantity	Price
-	£0

Description

Ultralight is a modular staging system constructed from aluminium with a lightweight core. This package includes everything you need to assemble a stage and create an area of 15m² or 5m x 3m.

GOPUSC Includes:

- 6 x 2m x 1m decks and risers with risers in a height of 600mm
- 3 x 1m x 1m decks and risers with risers in a height of 600mm
- 2 x 1m x 0.52m decks and risers with one riser in a height of 200mm and one riser in a height of 400mm (to create steps which are attached to the main stage using the four riser clamps supplied)
- As with all orders for staging packages, a 5mm Allen key is included to enable you to secure the stage decks and risers together.

Product Details:

- The stage deck is available in corded carpet, black vinyl, or for high impact areas a heavy duty black vinyl.
- Simple assembly with Allen key
- Formed with lightweight but extremely durable components
- Clever concertina folding design
- Use in conjunction with other staging components to create multiple configurations
- Stage Deck weight 4.5kg to 12.7kg each
- Stage Riser weight 1.5kg to 7kg each
- Can be handled by one person although a two person lift is recommended
- Tested to 1000kg m² even load distribution
- Point load testing to 180kg
- GS Approved construction
