Gopak Ultralight Staging Choir Package A

From: £5930

Quantity	Price
-	£0

Description

Ultralight is a modular staging system constructed from aluminium with a lightweight core. This package includes everything you need to assemble a three tiered curved choir stage with each tier wide enough (1m) for your choristers to either sit or stand.

GOPUSC1 Includes:

- 12 x 1m x 1m decks and risers. There are four risers in a height of 200mm, four risers in a height of 400mm and four risers in a height of 600mm.
- 9 x 1m choir infill decks and risers. There are three risers in a height of 200mm, three risers in a height of 400mm and three risers in a height of 600mm
- 28 x Riser clamps to safely and securely join the tiers together.
- As with all orders for staging packages, a 5mm Allen key is included to enable you to secure the stage decks and risers together.
- If using this stage with chairs we do recommend the addition of chair stop plates that are an optional extra and for added safety you may like to add guardrail across the back tier.
